
OPSIS Work Environmental Policy

The objective of OPSIS AB is to promote Health, Safety and Environment of person, which is important so that the employees will feel well-being and joy at work. Functional and nice working facilities are of great importance. Well-functioning tools and appropriate safety equipment are important in order to get a safe workplace. It is also important to reduce the risk of accidents and illness.

All employees at OPSIS take part in the work environment and participates in the implementation of the measures that are required in order to get an excellent work environment. As an employee, it is also important to notice risks in the work environment and tell the manager or the union representative about it.
